

APOLLO'S OIL STAIN REMOVER

POWERFUL SOLVENT-BASED STAIN REMOVER FOR TOUGH OIL STAINS

Apollo's Oil Stain Remover is a high-strength solvent cleaner designed to tackle stubborn oil stains on various surfaces. This cleaner penetrates deeply to lift and dissolve tough stains without damaging the underlying material. It's ideal for removing oil stains from concrete, stone, and other hard surfaces, restoring them to their original appearance.

TYPICAL APPLICATIONS

Apollo's Oil Stain Remover is effective on concrete, stone, and other non-porous surfaces to remove oil, grease, and other tough stains.

BENEFITS

- **Powerful Cleaning:** Dissolves and lifts stubborn oil stains effortlessly.
- **Non-Damaging:** Safe on hard surfaces without compromising their integrity.
- **Deep Penetration:** Reaches deep into surfaces for thorough stain removal.

CONTAINER SIZE

16.9 fl. oz. (500 mL)

HOW TO USE

Before applying Apollo's Oil Stain Remover, clean the surface by sweeping or vacuuming to remove any dust, dirt, or debris. Ensure the surface is dry and free from loose particles. Conduct a preliminary test on a small, inconspicuous area to confirm compatibility with the surface. For newly installed surfaces, wait until grout and adhesive are fully dried.

Avoid applying the product on overly heated surfaces; apply during cooler parts of the day. If the surface has any existing wax or protective treatments, remove them to allow for proper penetration of the stain remover.

Shake Apollo's Oil Stain Remover thoroughly before use. Cover the stain completely with a thick, even layer of the product. Allow it to dry fully until it turns to powder. Once dry, remove the powder residue:

- For porous materials, use a soft-bristled broom or clean brush.
- For non-absorbent materials, use absorbent paper, a towel, or a cloth.

After removing all residues, clean the surface with a slightly damp cloth or mop, then allow it to dry fully before assessing the results.

If the stain is not fully removed, repeat the application process as outlined above.

Ensure the surface is completely dry after the final cleaning before reopening for use or foot traffic.

Clean all application tools with water immediately after use.

NOTE: Apollo's Oil Stain Remover effectively lifts tough oil stains but does not provide long-term protection against future staining. For best results, use as needed and clean spills promptly to maintain a spotless surface.

PRECAUTIONS

Prioritize the use of adequate technical equipment to ensure a safe working environment. Ensure the area is well-ventilated, ideally with effective local aspiration to maintain air quality. Use appropriate personal protective equipment (PPE), including gloves, eye protection, and a respirator if ventilation is limited. For application, use tools designed for chemical handling, such as brushes or sprayers, to apply Apollo's Oil Stain Remover safely and effectively.

CAUTION

Keep away from heat, hot surfaces, sparks, open flames, and other ignition sources. No smoking. Avoid breathing dust, fumes, gas, mist, vapors, or spray. Use only outdoors or in a well-ventilated area. Use non-sparking tools when handling. Wear protective gloves, eye protection, and face protection. Ground and bond container and receiving equipment to prevent static discharge. Use explosion-proof electrical, ventilating, and lighting equipment. Wash hands and face thoroughly after handling.

FIRST AID

IF IN EYES, remove contact lenses if easy to do so and rinse immediately with plenty of fresh water for at least 15 minutes, keeping eyelids fully open. Seek immediate medical attention. IF IN CONTACT WITH SKIN, remove contaminated clothing and footwear. Wash thoroughly with running water and soap if available. Seek medical advice and avoid re-contact with contaminated clothing. IF INGESTED, do NOT induce vomiting unless explicitly advised by a medical professional. Do not give anything by mouth to an unconscious person and seek immediate medical attention. IF INHALED, move the individual to fresh air and ensure they are comfortable for breathing. If respiratory symptoms persist, keep the person warm and comfortable. Administer oxygen if necessary, and if the person stops breathing, provide artificial respiration. Seek medical attention promptly.

STORAGE

Store in the original, sealed container in a cool, well-ventilated area, away from direct sunlight. Keep away from heat sources, open flames, sparks, and other ignition points.
