

ATHENA'S HEAVY DUTY TILE CLEANER

CONCENTRATED ALKALINE CLEANER FOR DEEP CLEANING OF STUBBORN DIRT ON ALL SURFACES

Athena's Heavy Duty Tile Cleaner is a powerful, concentrated alkaline cleaner designed for deep cleaning of stubborn dirt and grime on cement tiles and other delicate surfaces. Ideal for both indoor and outdoor applications, this cleaner effectively removes built-up dirt and grout haze, ensuring surfaces are restored to their pristine condition

TYPICAL APPLICATIONS

Athena's Heavy Duty Tile Cleaner is suitable for deep cleaning cement tiles, stone, and other delicate surfaces to remove stubborn dirt, grime, and grout haze.

BENEFITS

- **Deep Cleaning Power:** Effectively removes stubborn dirt, grime, and grout haze.
- **Versatile Use:** Suitable for indoor and outdoor applications.
- **Safe on Delicate Surfaces:** Maintains surface integrity while providing a thorough clean.

CONTAINER SIZE

32 fl. oz. (950 mL)

HOW TO USE

Remove dust and debris with a broom or vacuum. Protect surfaces not intended for treatment, and ensure grout and adhesive on new installations are fully cured. Wet the surface with water to prepare it for cleaning.

Dilute solution:

- **Heavy-Duty Cleaning:** Use undiluted or dilute 1:1 to 1:4 for tough stains.
- **Grout Residue Removal:** Dilute 1:1 to 1:3 for acid-sensitive materials after installation.
- **Wax/Sealer Removal:** Dilute 1:1 for stripping treatments.
- **Regular Maintenance:** Dilute up to 1:9 for routine cleaning

Apply the solution evenly across the surface using a mop, sponge, spray bottle, or single-disc machine.

Scrub with a non-abrasive white sponge to aid the cleaner's effectiveness. Let the solution sit for 15-20 minutes, scrubbing occasionally. Ensure the surface stays wet by adding more solution or water as needed.

After 15-20 minutes, add clean water and scrub with a melamine sponge. Rinse thoroughly with clean water, and use a wet vacuum to remove excess water. Allow the surface to dry fully, then inspect the results. Repeat if necessary. Once dry, the surface is ready for use or further treatment. Surface must be resealed after cleaning with Athena's Heavy Duty Tile Cleaner. Clean all tools with water immediately after use.

NOTE: Athena's Heavy Duty Tile Cleaner is effective for deep cleaning and residue removal but does not provide long-term protection. For best results, use regularly for maintenance, and promptly clean spills to preserve surface quality.

PRECAUTIONS

Prioritize the use of adequate technical equipment to ensure a safe working environment. Ensure the area is well-ventilated, ideally with effective local aspiration to maintain air quality. Use appropriate personal protective equipment (PPE), including gloves, eye protection, and a respirator if ventilation is limited. Use tools designed for chemical application, such as brushes or sprayers, to apply Athena's Heavy Duty Tile Cleaner safely and effectively.

CAUTION

Keep away from heat, hot surfaces, sparks, open flames, and other ignition sources. No smoking. Avoid breathing dust, fumes, gas, mist, vapors, or spray. Use only outdoors or in a well-ventilated area. Use non-sparking tools when handling. Wear protective gloves, eye protection, and face protection. Ground and bond container and receiving equipment to prevent static discharge. Use explosion-proof electrical, ventilating, and lighting equipment. Wash hands and face thoroughly after handling.

FIRST AID

IF IN EYES, remove contact lenses if easy to do so and rinse immediately with plenty of fresh water for at least 15 minutes, keeping eyelids fully open. Seek immediate medical attention. IF IN CONTACT WITH SKIN, remove contaminated clothing and footwear. Wash thoroughly with running water and soap if available. Seek medical advice and avoid re-contact with contaminated clothing. IF INGESTED, do NOT induce vomiting unless explicitly advised by a medical professional. Do not give anything by mouth to an unconscious person and seek immediate medical attention. IF INHALED, move the individual to fresh air and ensure they are comfortable for breathing. If respiratory symptoms persist, keep the person warm and comfortable. Administer oxygen if necessary, and if the person stops breathing, provide artificial respiration. Seek medical attention promptly.

STORAGE

Store in the original, sealed container in a cool, well-ventilated area, away from direct sunlight. Keep away from heat sources, open flames, sparks, and other ignition points.
