

HERACLES' HEAVY DUTY GROUT CLEANER

PRODUCT DATA SHEET

CONCENTRATED ALKALINE BASED CLEANER SPECIFICALLY DEVELOPED FOR USE ON GROUT

Heracles' Heavy Duty Grout Cleaner is a concentrated, alkaline-based cleaner specifically formulated to deep-clean grout joints and restore their original appearance. Its acid-free formula effectively removes embedded dirt, grease, organic residues, mold, and stubborn stains without damaging surrounding surfaces. Suitable for both indoor and outdoor applications, Heracles' Grout Cleaner delivers powerful results for high-traffic and heavily soiled areas.

TYPICAL APPLICATIONS

Heracles' Heavy Duty Grout Cleaner is ideal for use on cement grout joints across ceramic, porcelain, natural stone, and other hard surfaces, providing deep and effective cleaning for residential, commercial, and high-traffic areas.

BENEFITS

- **Deep-Cleaning Power:** Penetrates and removes embedded dirt and stubborn grout stains.
- **Acid-Free Formula:** Safe for acid-sensitive and delicate surfaces.
- **High-Traffic Ready:** Ideal for heavily used indoor and outdoor areas.
- **Restores Appearance:** Revives grout color without damaging surrounding materials.

CONTAINER SIZE

32 fl. oz. (950 mL)

HOW TO USE

Ensure the grout surface is free from loose dirt, debris, and surface contaminants. Always test the product on a small, inconspicuous area prior to full application to confirm compatibility and results.

Dilute Heracles' Heavy Duty Grout Cleaner with water according to the level of soiling, using up to a 1:3 dilution for typical cleaning needs.

Apply the diluted solution evenly using a spray bottle, mop, or appropriate cleaning equipment. Allow the cleaner to dwell on the grout for 5–25 minutes, depending on the degree of contamination, and agitate periodically using a scrub brush or mechanical cleaning tool to enhance cleaning performance. Remove loosened residue and rinse thoroughly with clean water.

Repeat the process if necessary for heavily soiled grout.

This product removes existing sealers from grout. After cleaning, allow the surface to dry completely and reseal the grout to restore protection and maintain long-term performance.

NOTE: Heracles' Heavy Duty Mineral Descaler is effective for deep cleaning and residue removal but does not provide long-term protection. For best results, use regularly for maintenance, and promptly clean spills to preserve surface quality.

PRECAUTIONS

Prioritize the use of adequate technical equipment to ensure a safe working environment. Ensure the area is well-ventilated, ideally with effective local aspiration to maintain air quality. Use appropriate personal protective equipment (PPE), including gloves, eye protection, and respiratory protection if ventilation is limited. Use tools specifically designed for chemical application, such as brushes, rollers, or sprayers, to apply Heracles' Heavy Duty Grout Cleaner safely and effectively.

CAUTION

Keep away from heat, hot surfaces, sparks, open flames, and other ignition sources. No smoking. Avoid breathing dust, fumes, gas, mist, vapors, or spray. Use only outdoors or in a well-ventilated area. Use non-sparking tools when handling. Wear protective gloves, eye protection, and face protection. Ground and bond container and receiving equipment to prevent static discharge. Use explosion-proof electrical, ventilating, and lighting equipment. Wash hands and face thoroughly after handling.

FIRST AID

IF IN EYES, remove contact lenses if easy to do so and rinse immediately with plenty of fresh water for at least 15 minutes, keeping eyelids fully open. Seek immediate medical attention. IF IN CONTACT WITH SKIN, remove contaminated clothing and footwear. Wash thoroughly with running water and soap if available. Seek medical advice and avoid re-contact with contaminated clothing. IF INGESTED, do NOT induce vomiting unless explicitly advised by a medical professional. Do not give anything by mouth to an unconscious person and seek immediate medical attention. IF INHALED, move the individual to fresh air and ensure they are comfortable for breathing. If respiratory symptoms persist, keep the person warm and comfortable. Administer oxygen if necessary, and if the person stops breathing, provide artificial respiration. Seek medical attention promptly.

STORAGE

Store in the original, sealed container in a cool, well-ventilated area, away from direct sunlight. Keep away from heat sources, open flames, sparks, and other ignition points.
