

OCEANUS' ACIDIC POOL TILE CLEANER

CONCENTRATED ACID CLEANER FOR ORGANIC & INORGANIC RESIDUE REMOVAL

Oceanus' Acidic Pool Tile Cleaner is a powerful acid-based solution formulated to remove both organic and inorganic residues from pool tiles and other acid-resistant surfaces. Highly recommended for addressing stains and buildup from daily maintenance products, it restores the natural clarity and shine of low-absorbing surfaces.

TYPICAL APPLICATIONS

Oceanus' Acidic Pool Tile Cleaner is suitable for cleaning pool tiles, glazed surfaces, and other acid-resistant materials to remove organic dirt, inorganic residues, and layered maintenance buildup.

BENEFITS

- Descaling & Degreasing: Cuts through both organic and inorganic buildup.
- Acidic Formula: Provides professional-grade strength for deep cleaning.
- Surface Renewal: Restores shine and freshness to poolside tiles.

CONTAINER SIZE

32 fl. oz. (950 mL)

HOW TO USE

Remove dust and debris with a broom or vacuum. Protect surfaces not intended for treatment, and ensure grout and adhesive on new installations are fully cured. Wet the surface with water to prepare it for cleaning.

Dilute solution:

- Dilute between 1:10 and 1:1 with water, depending on surface type and residue level.
- Use undiluted for stubborn dirt and heavy deposits.

Apply the solution evenly across the surface using a mop, sponge, spray bottle, or single-disc machine. Allow product to act for 10–15 minutes. Remove residues using a wet vacuum. Rinse thoroughly with clean water until surface is fully residue-free.

Repeat application if necessary.

NOTE: Oceanus' Acidic Pool Tile Cleaner is effective for deep cleaning and residue removal but does not provide long-term protection. For best results, use regularly for maintenance, and promptly clean spills to preserve surface quality.

PRECAUTIONS

Prioritize the use of adequate technical equipment to ensure a safe working environment. Ensure the area is well-ventilated, ideally with effective local aspiration to maintain air quality. Use appropriate personal protective equipment (PPE), including gloves, eye protection, and a respirator if ventilation is limited. Use tools designed for chemical application, such as brushes or sprayers, to apply Athena's Heavy Duty Tile Cleaner safely and effectively.

PRODUCT DATA SHEET

CAUTION

Keep away from heat, hot surfaces, sparks, open flames, and other ignition sources. No smoking. Avoid breathing dust, fumes, gas, mist, vapors, or spray. Use only outdoors or in a well-ventilated area. Use non-sparking tools when handling. Wear protective gloves, eye protection, and face protection. Ground and bond container and receiving equipment to prevent static discharge. Use explosion-proof electrical, ventilating, and lighting equipment. Wash hands and face thoroughly after handling.

FIRST AID

IF IN EYES, remove contact lenses if easy to do so and rinse immediately with plenty of fresh water for at least 15 minutes, keeping eyelids fully open. Seek immediate medical attention. IF IN CONTACT WITH SKIN, remove contaminated clothing and footwear. Wash thoroughly with running water and soap if available. Seek medical advice and avoid re-contact with contaminated clothing. IF INGESTED, do NOT induce vomiting unless explicitly advised by a medical professional. Do not give anything by mouth to an unconscious person and seek immediate medical attention. IF INHALED, move the individual to fresh air and ensure they are comfortable for breathing. If respiratory symptoms persist, keep the person warm and comfortable. Administer oxygen if necessary, and if the person stops breathing, provide artificial respiration. Seek medical attention promptly.

STORAGE

Store in the original, sealed container in a cool, well-ventilated area, away from direct sunlight. Keep away from heat sources, open flames, sparks, and other ignition points.
